After struggling in our own business for over 5 years we looked to Franchising to improve our business and ourselves. We didn't understand at

the time just how good a fit Boost would be. Boost continue to push themselves to improve and us as Partners. After 12 years we are still loving life and Boost! Being part of a healthy brand that aims to make its customers feel just a little bit better has changed our lives.

Our Boost Juice journey began in 2003 with the opening of our first store after moving interstate. This was and still is one of the best decisions we have made in business to become a part of the Boost Juice and Retail Zoo family. There is always support, help and guidance at hand from the Support Centre and also friendship and support from other partners of the network. We have

successfully combined as a family unit with our other stores and have never looked back.

With 20+ years in QSR's and 15 years in franchised business behind me, my big regret is having only 4 years of that time with Boost. The Boost network is a family. It's innovative, supportive and passionate. Receiving 20 applications a week for potential Boosties is testament to the appeal and strength of the brand. Do yourself a favour, lodge the application!

We feel truly honoured and grateful to be part of the beautiful Boost Family from the very beginning of our journey. We take pride in being part of an Australian Icon. We love the brand, it's raw energy, vibe, unique buzz & promoting a fun, loving and healthy lifestyle. Over the past few years we have enjoyed being part of a family that embraces its passion for life and worked closely with us to achieving our ongoing success and accomplishments.
